### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. With respect to independent claims 1 and 17-19, Bemis fails to disclose a swingarm that is adapted to move the suction canister between a first position and a second position. The suction canister of Bemis remains stationary while the swingarm moves between a first upper position and a second lower position, as shown in figure 16. Since the canister is held by the housing, and not by the swingarm, the movement of the swingarm does not also move the canister. Therefore, Bemis fails to disclose or fairly suggest the claimed invention.
3. With respect to independent claims 14 and 20, Bemis fails to disclose a drainhead that is pivotable with respect to the swingarm, or that is capable of being moved while the swingarm remains stationary. The drainhead 492 of Bemis is coupled to the swingarm 484, as shown in figure 16, and unable to move independently from the swingarm. Since the swingarm of Bemis is designed to be raised or lowered in order to place the drainhead into the canister, allowing for separate movement of the drainhead while the swingarm remains stationary is not anticipated by Bemis. Therefore, Bemis fails to disclose or fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Anderson whose telephone number is (571)272-4932. The examiner can normally be reached on Monday through Friday.
